

Amendments to the Specification

On page 1, please insert the following heading and new paragraph immediately following the title:

REFERENCE TO RELATED APPLICATIONS

This application is the U.S. national stage, under 35 U.S.C. § 371, of International Application No. PCT/BG03/00039, having an international filing date of October 30, 2003, and claims priority to Bulgaria patent application 107388, filed December 13, 2002.

On page 1, please amend paragraph [0002] as follows:

[0002] A radiator block for heating of rooms is known [~~EPA0556433A1~~]
(EP0556433A1), which consists of many ribs, a pair of which forms a radiator element. When the block is assembled into a complete heating appliance, such as a radiator, there is hot liquid inside the radiator elements, which is heated by an electric resistance heater.

On page 1, please amend paragraph [0004] as follows:

[0004] The block of known ribs [~~EPA0556433A1~~] (EP0556433A1) is provided with a lateral external surface, which is absolutely flat. During operation its safety temperature is lowered, which ensures safety in case it is touched during exploitation.
